2) On clicking the link Red Sanders Wood, user should be navigated to a newly designed login page. The page should have the following structure:

Red Sanders Wood Auction

Images of Forest and red sanders wood

Important Documents

Andhra Pradesh		+
Odisha	+	

Click here to	Login
New Registra	ation

** On clicking 'Click Here to Login', user should be directed to General Scrap auction login page (<u>https://cma.mstcauction.com/auctionhome/index_new.jsp</u>)

** Similarly, on clicking New Registration, user should be navigated to the General terms and conditions page for O-type registration: <u>https://cma.mstcauction.com/auctionhome/Layouts/register.html</u>. Subsequent step of registration is same as for general scrap auction bidders.

On clicking the tabs of Odisha or Andhra Pradesh, the page should open in a new tab and all the documents uploaded against the link should be available for download. This should be linked to 'Dynamic Upload' (<u>https://cma.mstcauction.com/auctionhome/mstc/admin/dynamic_upload_link.jsp</u>) available in Admin login so that the list of documents can be created dynamically. Similar functionality has already been developed for ELV. Same can be replicated here.
